## SKILLS

Ruby

React

Flux(Redux)

JavaScript(ES6)

Git

HTML/CSS

SQL

Ruby on Rails

## PROJECTS

### Ultragram

Winter 2017 to Current

Photo-sharing app based on Instagram with a React frontend and a RESTful Ruby on Rails backend

- \* Leverages Rails Active Record Associations and JBuilder to limit AJAX requests to back end for a smoother user experience

- \* Remotely stores file uploads in the cloud with AWS S3 for a more scalable back end

### Chess

Winter 2017 to Current

CLI implementation of the classic game

- \* Employs class inheritance and module inheritance to keep code DRY

- \* Written with ANSI formatting library to colorize output, for richer feedback

### Collect the Coins

Winter 2017 to Current

Collect the Coins - Vanilla JavaScript game written for HTML5 compatible browsers

- \* Employs realistic physics to give players tighter control for a more enjoyable experience.

## EMPLOYMENT

### Accurate Specialty Metal Fabricators

Middle Village, New York

Administrative Assistant

Oct 2015 to Aug 2017, Oct 2015 to Aug 2017

- \* Managed Spiral Pipe Division

- \* Managed sales and records of transactions and shipments from quotes to final shipment

- \* Designed all forms to integrate into existing intercompany communication channels

- \* Research and manage new construction software, ProCore, to teach to other coworkers

- \* Produced monthly billing and financial records with charts and pivot tables
